## Jockey Plaza Shopping Mall

When it comes to shopping malls, Jockey Plaza is one of Lima's showpieces. Opened in April 1997 Jockey Plaza offers high-end facilities for well-funded shoppers in a western style environment. Next to a big supermarket, a home center and two department stores, you find over 230 shops and boutiques offering everything from clothes and shoes to sports gear and jewelry to all kinds of accessories and animal supplies. There is also a big food parlor, home to numerous fast-food chains and many small coffee shops. A big cinema, arcade games for the kids and a bowling center can be found as well. Additionally Jockey Plaza has a big conventional center where regularly exhibitions, trade fairs and shows take place. In November 2010 the Boulevard Jockey Plaza was inaugurated - a hypermodern place for luxurious shops including brands like Carolina Herrera, Armani, Montblanc, Bose, Guess, Calvin Klein, Hugo Boss, Billabong, Esprit and many more. With this and further planned additions to the commercial center (like the building of a huge financial center) Jockey Plaza once again gains an edge over the competitors.

## El Polo Shopping Mall

The Centro Comercial El Polo is a small shopping center in an exclusive district of Lima near the US Embassy and was opened in 1996. Its style is very different from other malls in Lima and it has some sort of charisma many others are missing. Coffee shops and ice cream parlors invite you to sit down and relax after you have done your

shopping at the numerous shops satisfying all your desires. El Polo is a nice place to spend the evening: several restaurants, small bars and a discotheque offer a great space to conclude the day.
